Melanie Toepfer
Enforcement Division
U.S. Environmental Protection Agency
230 South Dearborn Street
Chicago, Illinois 60604

Dear Ms. Toepfer:

Would it be possible for you to send me some additional information relevant to St. Louis Park PAH contamination? What I need are data sheets like the one enclosed, both sides, for 1978 - 1979. Also the following reports:

- #6. "Report on Waste Disposal at Republic Creosoting Company and Reilly Tar and Chemical Company, St. Louis Park" by G. R. Koonce, E. A. Pryzina (April, 1970).
- #8. "Preliminary Evaluation of Ground Water Contamination by Coal Tar Derivatives, St. Louis Park, Minnesota" by M. F. Hult, M. E. Schoenberg (October, 1979).
- #12. Memorandum from Rolland Grabbe, Organics Section Chief, U.S.G.S. Denver Laboratory (September 4, 1980).
- #27. "Epidemiologic Investigation of TNCS data for St. Louis Park, Edina, Richfield and Mpls-St. Paul SMSA with historical review of SLP Water Supply" by Kari H. Dusich (September, 1979).

I would be very appreciative of your time spent on my behalf.

Sincerely,

Jack Sahl
